

Join the Nordic Piloting Program for Circularity in Technical Building Solutions!

Are you ready to drive innovation and accelerate the shift toward circularity in the building sector? The **Nordic Piloting Program for Circularity in Technical Building Solutions**, led by **Combient Pure** and funded by **Nordic Innovation**, is an initiative to fast-track the development of circular technical solutions in products like HVAC systems, elevators, and door systems.

In collaboration with a wide presentation of the Nordic building sector: **ASSA ABLOY, Demontera, KONE, Multiconsult, NollaE, Skanska Swegon, Vasakronan** and **Cradlenet**, we invite you to join this groundbreaking program and make an impact!

What the Program Offers

Spring 2025:

- **Value Chain Workshops:** Explore circularity opportunities for technical building solutions through collaborative workshops from February to June.
- **Pilot Matchmaking:** Connect with partners to co-develop and test circular solutions in real buildings.

Fall 2025:

- **Piloting:** Develop and execute circular pilot projects with partners, in real buildings.

Spring 2026:

- **Review Sessions:** Evaluate pilot outcomes and share best practices on piloting.
- **Final event:** Showcase and learn about the results of the pilots in a public event.

Note: Participation in workshops does not require the participation to piloting. The program is free of charge for participants, and the program will not cover participants' expenses from piloting.

Who Should Join?

The program welcomes all building sector stakeholders operating in the Nordics, looking to advance circularity in technical building equipment, such as:

- Manufacturers of technical building products
 - Property owners
 - Construction companies
 - Installation companies
 - Planning offices
 - Circular marketplaces
 - Logistics and warehousing providers
-

Why Participate?

- **Gain Industry Insights:** We bring you together with leading Nordic companies and help you expand your understanding of circularity in technical building solutions.
 - **Pilot Solutions:** We help you find value chain partners to design and pilot circular solutions in real building projects.
 - **Impact the Future of Circularity in the Building Sector:** We help you contribute to shaping the future of technical building equipment - making the Nordics a leading hub of circular solutions.
 - **Strengthen Brand and Visibility:** We will help showcase your solutions across the Nordic market and gain visibility in national and EU-level discussions.
-

How to Join?

Fill out the participation form by **January 31, 2025**, and share your interest in the program workshops and piloting: <https://ee2t6l6icyl.typeform.com/pilotingprogram>

Let's work together to make the **Nordics a global leader in circular technical building solutions!**
